Quiz Instructions

Select the most correct answer.

Question 1 1 pts

How are runway numbers are determined?

Group of answer choices

○ Runway numbers correspond to the runway's magnetic direction, rounded to the nearest 10 degrees.

○ Runway numbers are based on how many revisions to the runway there have been.

○ Runway numbers correspond to the runway's true heading, rounded to the nearest 10 degrees.

Question 2 1 pts

 Determine the proper runway and traffic pattern for landing. The Wind is coming from the Northeast.

Group of answer choices

○

Left hand traffic for runway 4.

○

Right hand traffic for runway 22.

○

Left Hand traffic for runway 36.

Question 3 1 pts
The usual purpose of a displaced threshold is to indicate that there are obstructions such as trees, powerlines, or buildings off the end of the runway.

Group of answer choices

○

True

○

False

Question 4 1 pts
What marking indicates a closed runway?

Group of answer choices

○

A closed runway is designated by a yellow X.

○

There are no visual depictions.

○

You would find this information in your chart supplement.

Question 5 1 pts

Which airplane is on the correct side of the hold line to be clear of the runway?

Group of answer choices

○

B

○

A

Question 6 3 pts

Match the following signs to their descriptions.

Group of answer choices
Direction Sign

[Choose] ▼

Location Sign

[Choose] ▼

Mandatory Instruction Sign

[Choose] ▼

Question 7 1 pts
Which of the following actions can you take to help prevent a runway incursion.

Group of answer choices

○

-Review the airport diagram and taxi routes -After landing, stay on the tower frequency until instructed to change frequencies. -Readback all clearances involving active runway crossing, hold short, or line up and wait instructions.

○

-Continually look at the airport diagram while taxing. -Change to the ground frequency on the roll out after landing to assure you don't miss a radio call.

○

-Taxi as quick as practical to avoid getting out of sequence. Shorten radio calls with words like "roger" to keep frequencies available for other pilots.

Question 8 3 pts
Match the following airport beacon light patterns to the appropriate airport.

Group of answer choices
White/White/Green

[Choose] ▼

White/Green

[Choose] ▼

White/Yellow

[Choose] ▼

Question 9 4 pts

Match each illustration to the correct glide path description.

Group of answer choices
VASI, on glide path

[Choose] ▼

PAPI, slightly high

[Choose] ▼

PAPI, on glide path

[Choose] ▼

VASI, low

[Choose] ▼

Question 10 1 pts

Pilot-controlled lighting can be changed to high intensity by keying the mic 7 times within 5 seconds.

Group of answer choices

○

True

○

False

Question 11 1 pts

What should you do if you observe criminal activity, such as someone breaking into an airplane?

Group of answer choices

○

Call 1-866-GA SECURE and then call 911

○

Call 911 and then call 1-866-GA SECURE

○

Call 1-866-GA SECURE and then try to detain the suspected criminal

Question 12 1 pts

What is expected of you in order to conduct land and hold-short operations (LAHSO)?

Group of answer choices

○

Must have 5sm flight visibility.

○

To conduct LASHO, you should have at least a private pilot certifacate, have the published ALDs and runway slopes available, and know which runway LASHO combinaitons provide acceptable landing distances with the conditions upon arrival.

○

Have a mode C transponder.

Flag question: Question 13

Question 13 1 pts

True/False After you accept a LAHSO clearance, you must adhere to it and you may not go around.

Group of answer choices

○

True

○

False

Correct answer

Question 1

1 / 1 pts

How are runway numbers are determined?

○

Runway numbers are based on how many revisions to the runway there have been.

◉

Runway numbers correspond to the runway's magnetic direction, rounded to the nearest 10 degrees.

○

Runway numbers correspond to the runway's true heading, rounded to the nearest 10 degrees.

Correct answer

Question 2

1 / 1 pts

Determine the proper runway and traffic pattern for landing. The Wind is coming from the Northeast.

Left Hand traffic for runway 36.

○

Right hand traffic for runway 22.

◉

Left hand traffic for runway 4.

Left hand traffic for Runway 4.

Correct answer

Question 3

1 / 1 pts

The usual purpose of a displaced threshold is to indicate that there are obstructions such as trees, powerlines, or buildings off the end of the runway.

◉

True

○

False

Correct answer

Question 4

1 / 1 pts

What marking indicates a closed runway?

○

You would find this information in your chart supplement.

◉

A closed runway is designated by a yellow X.

○

There are no visual depictions.

Question 5

1 / 1 pts

Which airplane is on the correct side of the hold line to be clear of the runway?

◉

A

○

B

Question 6

3 / 3 pts

Match the following signs to their descriptions.

Direction Sign

C ▼

Location Sign

B ▼

Mandatory Instruction Sign

A ▼

Question 7

1 / 1 pts

Which of the following actions can you take to help prevent a runway incursion.

○

-Taxi as quick as practical to avoid getting out of sequence. Shorten radio calls with words like "roger" to keep frequencies available for other pilots.

◉

-Review the airport diagram and taxi routes -After landing, stay on the tower frequency until instructed to change frequencies. -Readback all clearances involving active runway crossing, hold short, or line up and wait instructions.

○

-Continually look at the airport diagram while taxing. -Change to the ground frequency on the roll out after landing to assure you don't miss a radio call.

Question 8

3 / 3 pts

Match the following airport beacon light patterns to the appropriate airport.

White/White/Green

Military Airport ▾

White/Green

Civilian land airport ▾

White/Yellow

Water airport ▾

Correct answer

Question 9

4 / 4 pts

Match each illustration to the correct glide path description.

VASI, on glide path

C ▾

PAPI, slightly high

E ▾

PAPI, on glide path

F ▾

VASI, low

B ▼

Other Incorrect Match Options:

- H
- A
- G
- D

Question 10

1 / 1 pts

Pilot-controlled lighting can be changed to high intensity by keying the mic 7 times within 5 seconds.

⦿

True

○

False

Question 11

1 / 1 pts

What should you do if you observe criminal activity, such as someone breaking into an airplane?

⦿

Call 911 and then call 1-866-GA SECURE

○

Call 1-866-GA SECURE and then try to detain the suspected criminal

O

Call 1-866-GA SECURE and then call 911

Question 12

1 / 1 pts

What is expected of you in order to conduct land and hold-short operations (LAHSO)?

O

Must have 5sm flight visibility.

◉

To conduct LASHO, you should have at least a private pilot certifacate, have the published ALDs and runway slopes available, and know which runway LASHO combinaitons provide acceptable landing distances with the conditions upon arrival.

O

Have a mode C transponder.

Question 13

1 / 1 pts

True/False After you accept a LAHSO clearance, you must adhere to it and you may not go around.

O

True

False
